

## WEST SHORE BACKS DOWN.

THE 800 LINE FORCED TO WITHDRAW THE TWENTY-THREE-CENT CUE.

The result was due to the exposure in the Sun-Three Erie and Lackawanna Thruway to bring on a rate war, and Commissioner Midgley said that the Chicago Lines had a knife ready.

The Erie's exposure of the unwarranted rate cut on the West Shore and Canadian Pacific Railroads had a speedy effect. The latter, after a day of rates was to back down, and after a week and tedious attempt at justifying the 23-cent cut they took that ignominious step. Both the West Shore and Canadian Pacific had admitted that there had been official action, and they agreed to recall the \$3.07 rate, with the ten days' necessary notice. The last idea was amusing, and it provoked a smile in the meeting. The two roads issued the tariff without a moment's notice, and in the next morning the Erie's rate was reduced to \$3.00, and the West Shore's to \$3.00.

Very timely it would have remained in force but for the unyielding of the Erie. The Erie was unyielding. It took Sun had shown up on Sunday last.

The effect of the Erie's articles was immediate. The very next day an officer of the Erie made a complaint to the Commissioner, and the latter called a special meeting at 10 A. M. on Tuesday, presiding over it.

The joint committee met at 11 o'clock. He insisted on a full attendance, but the West Shore and New York Central people stayed away, so nothing was done but to protest and wait for the general meeting yesterday, which was called to consider the whole subject on rates based on the Erie's and St. Paul.

Many officials were called to New York from the Northwest in anticipation of a big time. Commissioner Midgley of the Western Freight Association had instructions to inform the trunk lines if the West Shore Canadian Pacific and Erie were to be put on the same basis. The Erie's line made the Erie's line the same as the Erie's line. The Erie's line made the Erie's line the same as the Erie's line.

## SONS OF THE REVOLUTION.

ANNUAL MEETING OF THE NATIONAL SOCIETY IN HARTFORD.

Dr. Howard Webb Re-elected President. General Steps Toward a Union With the New York Society-A Banquet.

HARTFORD, April 30.—The annual meeting of the National Society of the Sons of the American Revolution was called to order by the President, Gen. Webb of New York, at 10:40 this morning. In the Supreme Court room a the State Capitol.

The roll call of general officers, members, delegates, and honorary members followed. Fifty-four delegates answered to their names, among them being many prominent men from various parts of the country. It was decided to accept the invitation of the Connecticut society to a banquet at the Allen House in the evening.

President Gen. Webb then read his annual report. He spoke of the pleasure it gave him to preside at the meeting. He said the society was a very prosperous one, and that it was a great honor to him to be its president. He said the society was a very prosperous one, and that it was a great honor to him to be its president.

CAPT. VERNEY'S TRIAL.

A Woman from Paris Makes More Serious Charge Against Him.

LONDON, April 30.—At the Bow Street Police Court to-day the trial of Capt. Verney, member of Parliament for North Buckinghamshire, charged with instigating the prosecution of a governor, Miss Nellie Beckett, for immoral purposes, was continued. The court room was crowded.

Letters signed "Wilson," the name of the woman who charged with Verney, were identified as being in Capt. Verney's handwriting. The hall porter of a fashionable club testified that letters addressed to "Wilson" were duly forwarded at Capt. Verney's request to the latter's various addresses.

At the conclusion of the evidence, the court adjourned to to-morrow. The court adjourned to to-morrow. The court adjourned to to-morrow. The court adjourned to to-morrow. The court adjourned to to-morrow.

THE CORK NOT YET REMOVED.

Dr. Bothwell Gaining Strength, Though, for Another Operation.

The Rev. Dr. George W. Bothwell, the Brooklyn clergyman, who got the cork of a four-ounce bottle into his left bronchial tube twelve days ago, recovered fully yesterday from the exhaustion which followed the operation on Wednesday afternoon, when Dr. Rushmore and Dr. Bates tried to remove the cork with a corker specially made for the operation.

Dr. Rushmore and Dr. Bates called at the Brooklyn Hospital, the cork was removed yesterday morning. They were greatly encouraged at his recovery from the shock, and they told him so. While they were at the hospital a plan to remove the cork by means of a vacuum pump was talked of.

The plan was to put a tube down the throat and connect it with a vacuum pump. The cork was to be removed by the suction of the pump. The cork was to be removed by the suction of the pump. The cork was to be removed by the suction of the pump.

Prof. John Le Conte of the State University of California died on Wednesday night at Berkeley. He was the son of Lewis Le Conte, the naturalist, and was born in Liberty county, Ga., in December, 1818. He was graduated at Franklin College of the University of Georgia in 1838, and at the New York College of Physicians and Surgeons in 1841. In 1846 he was called to the chair of Natural Philosophy in Franklin College, which he occupied until 1855. The following year he lectured on chemistry at

the New York College of Physicians and Surgeons, and in 1856 he was appointed Professor of Natural and Mechanical Philosophy in South Carolina College, at Columbia, S. C. In 1859 he was appointed Professor of Physics and Industrial Mechanics in the University of California, and discharged the duties of that position until 1881. From 1876 to 1881 he held the office of President of the university in connection with his professorship. At the expiration of his term of office he returned to the chair of physics, which he occupied until his death. The whole of his active life, more than half a century, was devoted to advancing the cause of science, and he was a member of the American Association for the Advancement of Science, the American Philosophical Association, the American Association of University Professors, the American Association of University Professors, the American Association of University Professors, the American Association of University Professors.

## THE AFTER EFFECTS.

Where the Fearful Danger of Grip Laid and How to Counteract It.

Here is something which one of the most prominent doctors in America recently said about the Grip: "I have noticed that only those persons who were aged and feeble or debilitated by the Grip? The Grip itself is not so serious or dangerous, but it is the terribly weakened condition that it leaves one in and the fearful after-effects which it brings. The people who do not have vitality enough to recover; they do not possess vigor enough to throw off the after-effects. Such people, in fact all people, should have help in some manner to throw off the depressing, debilitating, the almost suicidal features which the Grip always causes. Nothing will do this, nothing will help nature, except some pure stimulant, and there is nothing in the way of stimulants equal to pure whisky. No medicinal stimulant ever has produced the results, ever has received the endorsement, or ever has been so popular as Duffy's Pure Malt Whisky. The reason is it is exceedingly simple. It is because it has quality, healthful and completely restored nature, and it enabled it to resist the outside influences which tended to disease and to assist toward the attractive path which leads to health. The after effects of the Grip are the worst features of the disease. They may be counteracted by strength and health are to be regained. They can be overcome in but one certain way, and that is by the use of the sensible, efficient and highly endorsed stimulant above mentioned. There is nothing better than the pure whisky which can for a moment compare with it, and the genuine should be insisted upon."
